

## Bio on Cathy Baker

I have been a member of OSTC since 1985 and have been on the State Board as Vice President. I love our organization and feel I can do a great job as President. I have been President of my local Unit on and off for 7 years. I have chaired two conventions in that time period. I know I have the experience to lead this organization.

In 1991 I started working for a CPA and got my tax preparers license. In 1996 I got my Consultants License, this same year I opened my business American Bookkeeping & Tax Service. I have built it from 30 clients in 1996 to 515 this year. I made the big step of moving from my office in home to an actual office in town this year and what a difference this has made.
